Women at Hull House

Let’s think about this video in relation to what we know already about the “objective” and “subjective” reasons for the settlement movement, a crucial chapter in the history of U. S. social reform.

1. Pick up the key residents and note their special reform interests.

2. Give some examples where their investigations and reform activism lead to new laws.

3. Did the women of Hull House achieve real power in government?

4. How many of their issues would you say are still problems today, in the US? in the world?
