**ABOUT THE JOURNAL**

We are a space for undergraduates to share original research and other scholarly works of history. At the Journal we are interested in historical content on any and all facets of our collective pasts.

The UCSB Journal is a student-run initiative that offers upper division students the opportunity to learn how scholarly publishing works in history.

- Students do this through traditional means - peer review, revisions, copy-editing, publications (twice a year).
- Also do content creation in digital history - blog posts, OTDH posts, and starting this year, a local history podcast (ongoing).
- HIST 196 JA/B/C Series (12 students) - two quarter commitment.

**NB: Also a way to recognize the research you will do in R seminars or one the Thesis options here at UCSB.**

# Undergraduate Journal of History

Added Perk: Opportunity for undergraduates, graduate students, and faculty to work together and learn from each other.
