P/NP Grading Policy Spring 2020

1.) The history department has opted into this policy exception for spring 2020. What this means is that any history course now has the option to be switched to P/NP grading in GOLD for this quarter, regardless of whether it is usually offered that way.

2.) Courses taken as P/NP this quarter can be applied towards your history department major/minor.

3.) For any courses you are using towards your history major/minor that are housed in a different department, it is at the discretion of the department that owns the course to decide if it can be offered as P/NP or not.

4.) Students on academic probation may not take courses as P/NP.

5.) If you are considering pursuing graduate school in your major field, or if you are thinking of going to law school, it may not be wise to take any major courses as P/NP. In particular, law schools will recalculate your GPA with any "NP" replaced by "F".

6.) If you are thinking of changing majors or declaring a second major or a minor, please consult with that department before taking any courses that count towards their requirements as P/NP.

7.) If you are receiving GI Bill Veterans benefits, please check with your VA certifying official before changing courses to P/NP.

8.) You have until week 10 of the quarter to decide on your grading options.

If you have any questions about these policy changes, please feel free to reach out to me or an advisor in the College of Letters and Science. I hope you all have a wonderful Friday!
